Section 1: Product Identification

Product Name: TransFast Antique Pine #3279

MSDS #: 3279

Date Issued: June 27, 2005

Original **Update**

Reason For Change:

Section 2: Hazardous Ingredients

Hazardous Ingredients	CAS Number	OSHA PEL (Permissible exposure limit)	ACGIH TLV (Threshold limit value)	% By Weight
Sodium sulfate	7757-82-6	Not applicable	Not applicable	50-70%
Acid Orange 10	1936-15-8	Not applicable	Not applicable	10-20%
Acid Yellow 23	1934-21-0	Not applicable	Not applicable	10-20%
Acid Blue 9	2650-18-2	Not applicable	Not applicable	1-10%
Acid Red 14	3567-69-9	Not applicable	Not applicable	1-10%

Note: All health hazard components above 1% composition and all carcinogens above 0.1% (1000 ppm) composition are listed.

Section 3: Hazard Identification

EMERGENCY OVERVIEW: WARNING! This product is HAZARDOUS by OSHA Hazard Communication definition. May cause slight respiratory tract, skin and eye irritation.

Hazard Rating: NFPA

HMIS

Hazard Rating Scale:

Health: 1

0= Minimal

Flammability: 1

1= Slight

Reactivity: 0

2= Moderate

PPE: B

3= Serious

4= Severe

Note: NFPA and HMIS ratings involve data and interpretations that may vary from company to company. They are intended only for rapid, general identification of the specific hazard. To deal adequately with the safe handling of this, or any, material, all the information in the MSDS must be considered and interpreted by a trained professional.

Potential Health Effects:

This material has **not been** tested as a whole. The data contained below is based on the properties of the individual components.

This material has been tested as a whole. The data below is based on the properties of the mixture.

Auto – Ignition Temperature.....	Not applicable
Upper Flammable Limit (% Vol).....	Not applicable
Lower Flammable Limit (% Vol).....	Not applicable
Extinguishing Media.....	Use water mist, carbon dioxide, dry chemical or foam.
Unusual Fire and Explosion Hazards.....	None expected, but avoid the build-up of dye dust clouds which could be explosive as are other organic powders.
Hazardous Combustion Products.....	Oxides of carbon, nitrogen and sulfur.

General Information:

Firefighters should wear full protective equipment and positive pressure self-contained breathing apparatus in pressure-demand mode.

Section 6: Accidental Release Measures

Spill / Leak.....	Use proper personal protective equipment as indicated in Section 8. Clean up spills immediately. Provide ventilation. Mix material with sweeping compound to minimize dusting while sweeping and containing. Vacuum contaminated areas.
-------------------	---

Section 7: Handling and Storage
--

Handling Procedures.....	Maintain good personal hygiene. Wash hands and face thoroughly after handling, and before eating, drinking or using tobacco products. Remove contaminated clothing and wash before re-use. Avoid contact with eyes, skin and clothing. Keep containers tightly closed. Use only with adequate ventilation.
Storage Needs.....	Observe local regulations. Store in a cool, dry, well-ventilated area, in original or similar waterproof containers, away from incompatible materials. Keep containers closed when not in use.

Section 8: Exposure Controls / Personal Protection

When selecting personal protective equipment and clothing, follow all manufacturer specifications and recommendations that apply to your specific operations and processing conditions. Take into consideration all working conditions and all chemicals to be handled or processed.

Eye / Type.....	Wear safety glasses with side-shields or chemical safety goggles. Contact lenses should not be worn when working with chemicals.
Respiratory /Type.....	A NIOSH/MSHA – approved dust respirator should be worn.
Gloves / Type.....	Wear impervious gloves as a standard handling procedure.
Clothing / Type.....	Wear long sleeved garment such as a lab coat to prevent skin exposure.
Other / Type.....	Facilities using or storing this product should be equipped with an eyewash facility and safety shower within 100 feet from work area.
Ventilation Requirements.....	Local exhaust ventilation is required to minimize exposures.

Section 9: Physical and Chemical Properties
--

Appearance/Odor.....	Reddish brown powder, slightly aromatic
Specific Gravity.....	Not determined
Vapor Pressure	Not determined
Vapor Density	Not applicable
Evaporation Rate.....	Not applicable
Boiling Point	Not applicable
Solubility in Water (%W/W).....	Soluble
Freezing Point (deg. C <input type="checkbox"/> F <input type="checkbox"/>).....	Not applicable
Melting Point (deg. C <input type="checkbox"/> F <input type="checkbox"/>).....	Not applicable

Section 10: Stability and Reactivity

Hazardous Polymerization.....	Will not occur under normal conditions.
Stability.....	Stable
Incompatibility.....	Oxidizing and reducing agents
Conditions to Avoid.....	Excess heat
Hazardous Products of Decomposition....	Oxides of carbon, nitrogen and sulfur

Section 11: Toxicology Information

Irritancy of Material.....	Slight eye irritant.
Sensitizing Capability of Material.....	Not known
Carcinogenicity of Material.....	See Section 3
Teratogenicity	Not known
Mutagenicity.....	Not known
Reproductive Effects.....	Not known
Synergistic Materials.....	Not known

Section 12: Ecology Information
--

Environmental.....	Water-soluble.
Biodegradability.....	Not tested

Section 13: Disposal Considerations
--

Waste Disposal	Dispose in accordance with local, state and federal environmental control regulations. Emptied containers retain product residue and should not be distributed, made available, furnished or reused except for the storage and shipment of the original product.
----------------------	--

Section 14: Transport Information
--

U. N. # Not applicable

D.O.T. Classification Not applicable
