

MATERIAL SAFETY DATA SHEET

Section 1 - Product Identification and Use

Product Identifier: Antiquax	PEN: 1600-1601-1602	Product Use: Paste wax
Manufacturer/Supplier: Swing Paints Limited 2100 St. Patrick St. Montreal Quebec H3K 1B2 TEL (514) 932-2157 FAX (514) 932-2779		
Emergency Telephone Number: (613) 996-6666		

Section 2 - Hazardous Ingredients

Hazardous Ingredients	CAS Number	LD50 (rat-oral)	LC50 (rat-4 hours)
Aliphatic Hydrocarbon Solvent	64742-48-8	0.500 g/kg	2500 ppm/4H

Section 3 - Physical Data

Physical State: solid	Odour: characteristic	Appearance: solid	Odour Threshold: 220 ppm
Vapour Pressure (mm Hg): ND	Vapour Density (Air=1): 4.8	Evap. Rate (N-butyl acetate=1): 0.1	Boiling Point (°C): 160°C - 204°C
pH:	Specific Gravity:	Coeff. Oil/Water Dist.:	Freezing Point (°C):

Section 4 - Fire and Explosion Data

Flammability: Flammable vapors			Conditions: Keep away from sources of heat, open flames, sparks static.		
Means of Extinction: Use Carbon Monoxide, foam, water or dry chemical					
Flashpoint (°C) and Method: 38 T.C.C.		Upper Flammable Limit (% by volume): 6.0		Lower Flammable Limit (% by volume): 1.0	
Autoignition Temperature (°C): NA			Hazardous Combustion Products: ND		
Explosion Sensitivity to Impact: No			Explosion Sensitivity to Static Discharge: Yes		
Special Methods: Provide adequate ventilation. Keep away from flame or sparks and treat as a flammable liquid. Wear adequate respiratory protection.					

Section 5 - Reactivity Data

Chemical Stability: Stable		Conditions: Avoid poor ventilation, sparks or open flame.	
Chemical Incompatibility: Strong oxidizing agent oxidizing agent		Conditions:	
Reactivity:		Conditions:	
Hazardous Decomposition Products: Carbon Monoxide, Carbon Dioxide produced on combustion.		Conditions:	

MATERIAL SAFETY DATA SHEET

Product Identifier: Antiquax Paste Wax

Section 6 - Toxicological Properties

Route of Entry Skin Contact: Yes Skin Absorption: Yes Eye Contact: Yes Inhalation: No Ingestion: Yes

Effects of Acute Exposure: May cause eye, nasal, respiratory, skin irritation.

Effects of Chronic Exposure: Excessive exposure may effect central nervous system, respiratory, eyes skin.

Exposure Limits:

Irritancy of Product: May cause eye, nasal, respiratory, skin irritation. Avoid contact. Avoid breathing vapours.

Sensitization to Product: Prolonged or repeated contact may cause skin irritation and dermatitis.

Carcinogenicity: None

Teratogenicity: ND

Reproductive Toxicity: Non-Toxic for reproduction..

Mutagenicity: ND

Synergistic Products: ND

Section 7 - Preventive Measures

Personal Protective Equipment: Avoid inhalation, contact with skin and eyes.

Gloves: Impervious (latex, neoprene)	Respirator: Approved organic canister mask or air supplied respirator. Only if use generates mist or vapours.	Eye: Chemical goggles to prevent eye contact.
Footwear: Impervious (thick leather or rubber)	Clothing: Imperivious protective clothing	Other:

Engineering Controls: Use with adequate ventilation.

Leak and Spill Procedure: Flush with water to an open, well ventilated area. Wear adequate respiratory protection. Absorb with absorbent material, remove to a container. In case of long spills warn public of downwind explosive hazards. Keep away from sewers and waterways.

Waste Disposal: Dispose by controlled burning in an approved incinerator or landfill the absorbed material in a government approved site, in accordance with Federal, Provincial and Local regulations.

Handling Procedures and Equipment: Handle as a flammable liquid. Wear adequate respiratory protection.

Storage Requirements: Store in a well ventilated area, away from oxidizing agents, heat and all sources of ignition. Use good personal hygiene.

Special Shipping Information: Class: 3.3 Packing Group: III U.N. no.:

WHMIS Class: B.3

Section 8 - First Aid Measures

Eyes: Wash with plenty of water for at least 15 minutes while maintaining eyelids opened. Consult a physician.

Skin: Wash with water and mild soap. Flush with plenty of water for 15 minutes.

Inhalation: Remove victim to fresh air. Assist breathing if needed, administer oxygen. Ask for medical care immediately.

Ingestion: Low order of toxicity, but aspiration into lungs during swallowing or subsequent vomiting may cause severe lung irritation.

Section 9 - Preparation Date of MSDS

Prepared by: Bill Logan

Phone Number: (514) 932-2157

Date: January 1, 2003

ND - Not Determined

NA - Not Applicable
